Please return. If Khruschev Remembers is to be trusted, then I think it is less than faithful to say that Vlasov was subverted, for Stalin personally engineered his capture and that of his ernormpus army and the large population with them, the deaths and tortures of so many, and gave som very many Russian and Ukrainians reason for bitterness. I have often wondered how many of my relatives unknown to me are among these victims. This also the recruits here described as anti-Communist may well have been largely anti-Stalin Communists who regarded Hitler as the only means of getting rid of him and worth the cost under the circumstances. HW
